

Dear Congressman (Senator) _____,

I read the account of the treatment Dr. Schultz received at the Air Force Institute of Technology and how the USAF refuses to take action against the flagrant violation of the US Constitution. I understand that Dr. Schultz's claims are supported by available documentation. I was appalled that the Air Force would so casually disregard their oaths of office and the principles of this country.

It is essential that the armed forces live up to their oaths to defend the Constitution. Service to the Air Force cannot take precedence over defense of the Constitution. Officers and NCOs must be educated on the U.S. Constitution, what it means, and how it is interpreted. Those who would ignore the Constitution must be prosecuted and removed from office. Our brave men and women should not be required to serve with those who would so carelessly discard our core values. Those who became aware of the situation and took no action to defend the Constitution should be counseled and taught that they have a duty to live up to their oath of office. The culture of the USAF needs to change so that defending the Constitution becomes the priority.

Please keep me informed of the investigation and actions taken on this issue.

Thank you.
